INDEX	189-204

This book with the title '*National Education Policy 2020 : Issues and Challenges*' deals with the new National Education Policy (NEP) 2020 that is expected to bring revolution in the field of education by making it 'value-based, multi-disciplinary and holistic', with the objective to produce skilled citizens that would enable every individual to engage themselves to live a decent life and bring prosperity to the nation thereby making India the hub of knowledge superpower. However, the policy can be said to be successful only when education is reached to all the people of the country equally. Witnessing the present scenario of education sector it can be anticipated that various issues and challenges would likely emerge in the implementation of the policy. Therefore, this book has made an attempt to deal with the 3Ps - Provisions, Problems and Prospects of the new National Policy of Education 2020. This book is the second publication from the Publication Cell, LGB Girls' College, Tezpur, the first being the 'Tezpur Bithika'.
